Pemakluman

Kepengerusian ASEAN-Malaysia 2025: Jabatan Perangkaan Malaysia (DOSM) akan mempengerusikan Jawatankuasa Sistem Statistik Komuniti ASEAN Ke-15 (ACSS15) yang bertujuan untuk memperkukuh kerjasama statistik ke arah pembangunan serantau yang mampan.

Malaysia buat julung kalinya telah menduduki tangga pertama (1) di peringkat global dalam laporan dwi-tahunan Open Data Inventory (ODIN) 2024/25 yang dikeluarkan oleh Open Data Watch (ODW), mengatasi 197 negara lain. Pencapaian ini merupakan lonjakan ketara daripada kedudukan ke-67 dalam penilaian ODIN 2022/23.

Kerajaan Malaysia telah mengisytiharkan 20 Oktober sebagai Hari Statistik Negara (MyStats Day), dengan tema 'Statistik Nadi Kehidupan.' Sementara itu, Hari Statistik Dunia Keempat akan disambut pada 20 Oktober 2025 dengan tema 'Driving Change with Quality Statistics and Data for Everyone'.

OpenDOSM NextGen adalah medium yang menyediakan katalog data dan visualisasi bagi memudahkan pengguna menganalisis pelbagai data dan boleh diakses melalui portal <https://open.dosm.gov.my>.

Announcement

ASEAN-Malaysia 2025 Chairmanship: The Department of Statistics Malaysia (DOSM) will chair the 15th ASEAN Community Statistical System Committee (ACSS15) which aims to strengthen the statistical cooperation towards sustainable regional development.

Malaysia, for the first time, ranked as number one (1) globally in the biennial Open Data Inventory (ODIN) 2024/25 report released by Open Data Watch (ODW), surpassing 197 other countries. This achievement marks a significant leap from its 67th position in the ODIN 2022/23 assessment.

The Government of Malaysia has declared October 20th as National Statistics Day (MyStats Day), with the theme 'Statistics is the Essence of Life.' Meanwhile, the Fourth World Statistics Day will be celebrated on 20th October 2025, with the theme 'Driving Change with Quality Statistics and Data for Everyone'.

OpenDOSM NextGen is a medium that provides data catalogue and visualisations to facilitate users' analysis and can be accessed through <https://open.dosm.gov.my>.

KATA PENGANTAR

Penerbitan ini memaparkan statistik Kedudukan Pelaburan Antarabangsa (IIP) Malaysia bagi suku tahun kedua 2025. Data siri masa suku tahunan bagi 2020 hingga 2024 turut dimuatkan di dalam penerbitan ini. Ia disusun berdasarkan syor *International Monetary Fund (IMF)* yang terkandung di dalam *Balance of Payments and International Investment Position Manual, Sixth Edition (BPM6)*.

IIP mengukur aset kewangan dan liabiliti Malaysia termasuk Pelaburan langsung, Pelaburan portfolio, Derivatif kewangan, Pelaburan lain, Aset rizab dan tahap pelaburan asing di Malaysia dan pelaburan Malaysia di luar negeri. Statistik ini boleh digunakan oleh agensi kerajaan, ahli ekonomi, ahli akademik, serta individu bagi tujuan membuat perancangan dan penggubalan dasar, analisis ekonomi, unjuran dan membantu merancang pembangunan perniagaan.

Ringkasan penemuan dan jadual statistik terperinci dipaparkan pada bahagian pertama dan kedua penerbitan ini. Sementara itu, bagi memudahkan lagi kefahaman, aspek teknikal seperti skop, liputan, konsep dan definisi dimuatkan pada bahagian akhir.

Jabatan merakamkan penghargaan atas kerjasama semua pihak dalam membekalkan data yang diperlukan dan menyumbang kepada kejayaan penerbitan ini.

DATO' SRI DR. MOHD UZIR MAHIDIN

Ketua Perangkawan Malaysia

Ogos 2025

PREFACE

This publication presents statistics on International Investment Position (IIP) Malaysia for the second quarter of 2025. The time series of quarterly data for 2020 to 2024 are also included in this publication. It is compiled based on the recommendation of the International Monetary Fund (IMF) in the Balance of Payments and International Investment Position Manual, Sixth Edition (BPM6).

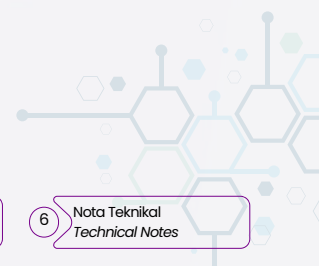

IIP statistics measures Malaysia's financial assets and liabilities including Direct investment, Portfolio investment, Financial derivatives, Other investment, Reserve assets and the level of foreign investment in Malaysia and Malaysia's investment abroad. This statistics can be used by government agencies, economists, academicians as well as individuals for planning and formulations of policies, economic analysis, projections and to assist in business development planning.

Summary of findings and detailed statistical tables are highlighted in the first and second parts of this publication. Meanwhile, to facilitate better understanding, technical aspects on scope, coverage, concepts and definitions are provided in the final part.

The Department acknowledges the cooperation of all parties that have provided the required data and contributed to the success of this publication.

PRESTASI KEDUDUKAN PELABURAN ANTARABANGSA

Kedudukan Pelaburan Antarabangsa Malaysia (IIP) mencatatkan peningkatan aset bersih RM63.1 bilion pada akhir suku tahun kedua 2025 (ST1 2025: RM37.8 bilion). Jumlah aset kewangan meningkat daripada RM2.51 trilion pada suku lepas kepada RM2.56 trilion pada suku ini. Pelaburan portfolio merupakan penyumbang terbesar dengan 32.8 peratus, diikuti oleh Pelaburan langsung sebanyak 31.7 peratus (**Paparan 1**). Pada masa yang sama, jumlah liabiliti mencatatkan nilai yang lebih tinggi dengan RM2.50 trilion berbanding RM2.47 trilion pada suku lepas. Pelaburan langsung dan Pelaburan portfolio merupakan penyumbang utama dengan peratus sumbangan masing-masing 47.6 peratus dan 28.2 peratus.

IIP Bersih bagi ST1 2021 – ST2 2025 (RM bilion)

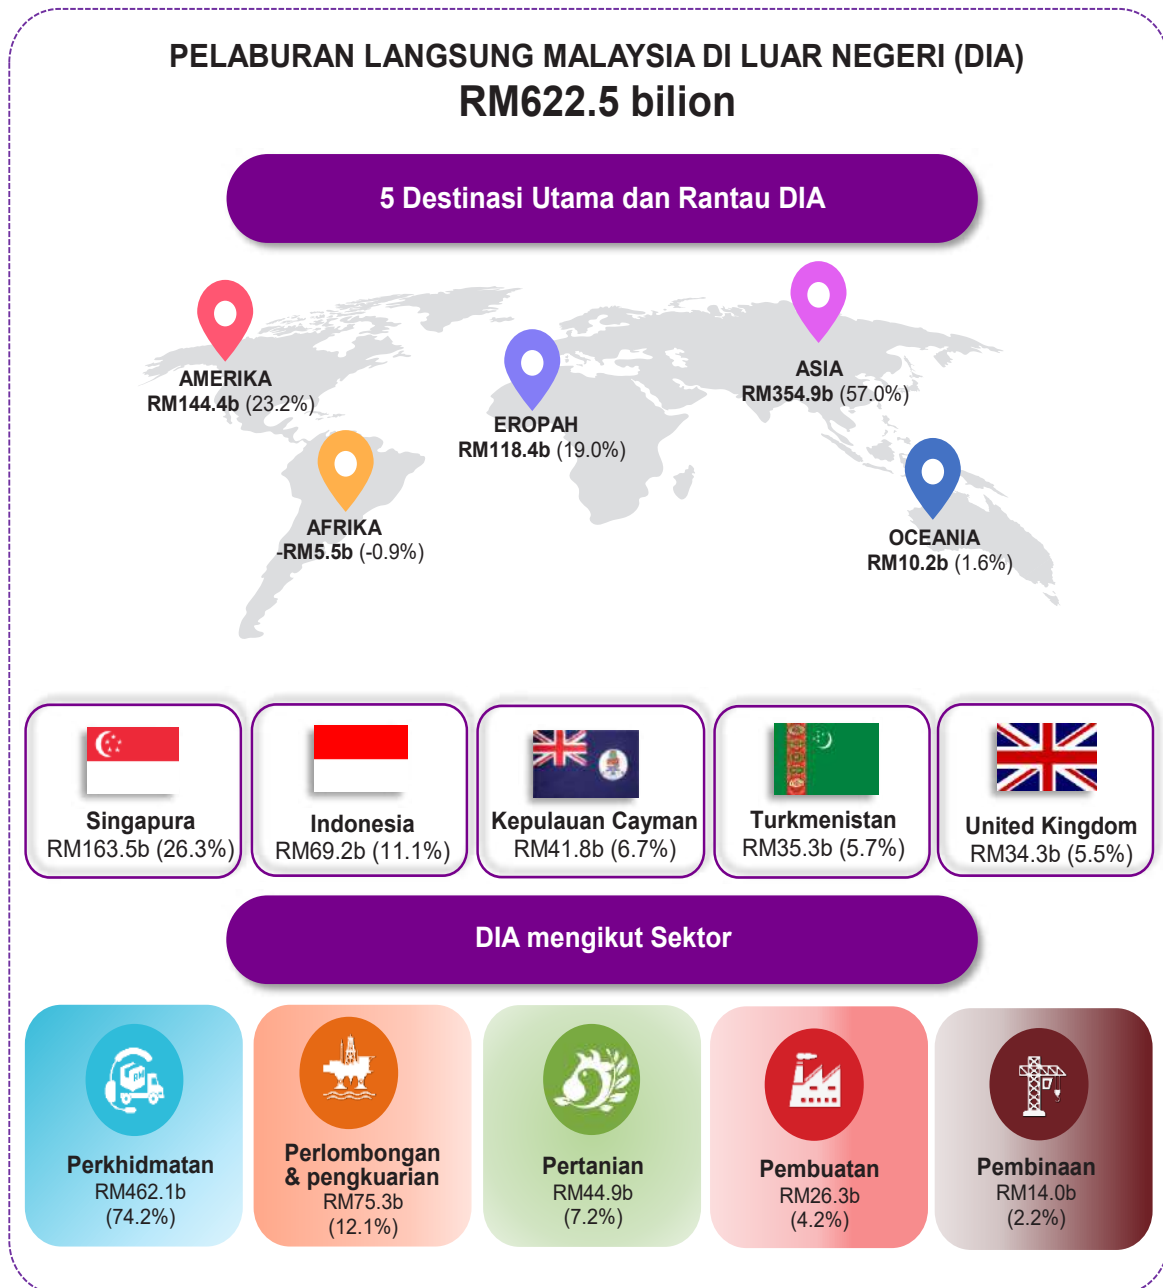

Nota: 1. % merujuk kepada peratus sumbangan bagi komponen
2. b merujuk kepada bilion

PELABURAN LANGSUNG

Pelaburan langsung mencatatkan liabiliti bersih RM379.4 bilion berbanding RM380.8 bilion pada akhir suku tahun lepas. Jumlah aset Pelaburan langsung meningkat sebanyak RM9.1 bilion untuk merekodkan pada RM810.6 bilion (ST1 2025: RM801.5 bilion), terutamanya dalam bentuk Ekuiti & dana pelaburan saham sebanyak 56.6 peratus (RM458.5 bilion) dan Instrumen hutang 43.4 peratus (RM352.1 bilion). Bagi liabiliti, Pelaburan langsung juga merekodkan peningkatan kepada RM1.19 trilion, disumbangkan oleh Ekuiti & dana pelaburan saham sebanyak 70.0 peratus (RM833.4 bilion) dan Instrumen hutang 30.0 peratus (RM356.6 bilion).

Berdasarkan prinsip arah aliran, kedudukan **Pelaburan Langsung Malaysia di Luar Negeri (DIA)** meningkat kepada RM622.5 bilion berbanding RM618.9 bilion pada akhir suku tahun sebelumnya. Sektor Perkhidmatan adalah penyumbang utama bagi kedudukan DIA dengan sumbangan 74.2 peratus (RM462.1 bilion), diikuti sektor Perlombongan & pengkuarian (RM75.3 bilion) dan Pertanian (RM44.9 bilion), **Paparan 2**. Bagi pelaburan mengikut rantau, Asia memegang kedudukan DIA terbesar pada RM354.9 bilion dengan peratusan sebanyak 57.0 peratus. Antara destinasi utama adalah Singapura yang mendahului dengan nilai sebanyak RM163.5 bilion (26.3%), diikuti Indonesia (RM69.2 bilion; 11.1%) dan Kepulauan Cayman (RM41.8 bilion; 6.7%).

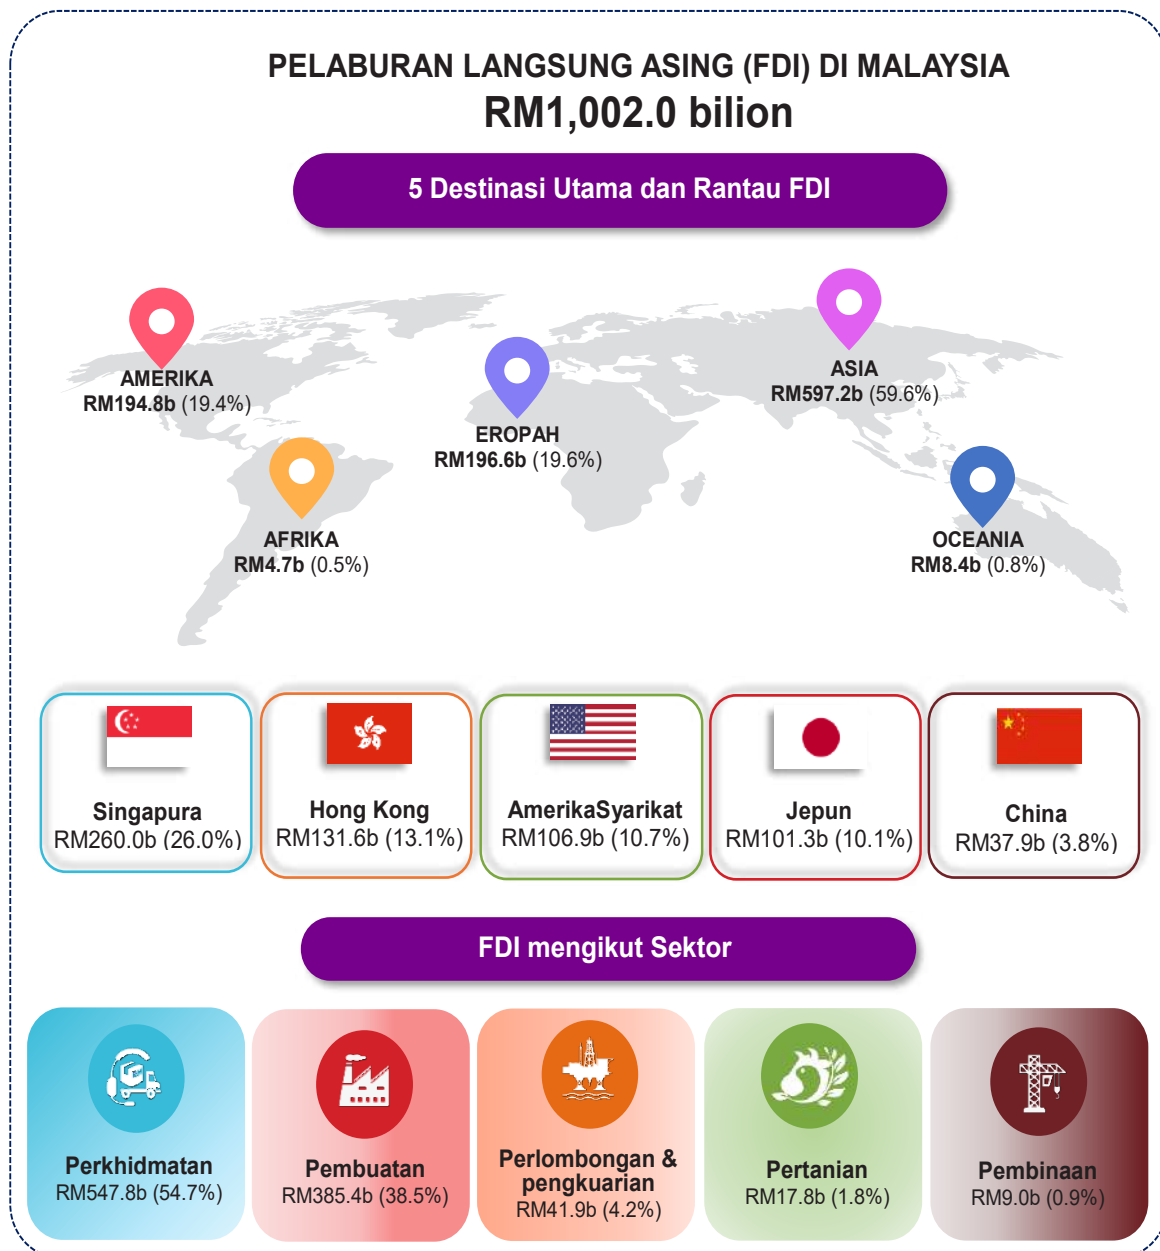

Paparan 2: Kedudukan DIA mengikut Sektor dan Destinasi Utama, ST2 2025

Nota: 1. Nilai dalam kurungan () merujuk kepada peratus sumbangan
2. b merujuk kepada bilion

Pada akhir suku tahun kedua 2025, kedudukan **Pelaburan Langsung Asing (FDI)** di Malaysia meningkat sebanyak RM2.2 bilion, untuk mencapai RM1,002.0 bilion (ST1 2025: RM999.7 bilion), **Paparan 3**. Sektor Perkhidmatan kekal sebagai penerima tertinggi FDI dengan nilai sebanyak RM547.8 bilion atau 54.7 peratus. Ini diikuti oleh Pembuatan (RM385.4 bilion; 38.5%) dan Perlombongan & pengkuarian (RM41.9 bilion; 4.2%). Sumber kedudukan FDI terutamanya adalah dari rantau Asia berjumlah RM597.2 bilion atau 59.6 peratus. Singapura, Hong Kong dan Amerika Syarikat merupakan tiga negara utama kedudukan FDI.

Paparan 3: Kedudukan FDI mengikut Sektor dan Destinasi Utama, ST2 2025

Nota: 1. Nilai dalam kurungan () merujuk kepada peratus sumbangan
2. b merujuk kepada bilion

PELABURAN PORTFOLIO

Pelaburan portfolio pada akhir suku tahun kedua 2025 menunjukkan kedudukan aset bersih RM135.3 bilion berbanding RM132.0 bilion pada suku tahun sebelumnya (**Paparan 4**). Jumlah aset Pelaburan portfolio meningkat sebanyak RM30.5 bilion kepada RM839.9 bilion (ST1 2025: RM809.4 bilion), disumbangkan oleh Ekuiti & dana pelaburan saham (80.4%) dan Sekuriti hutang (19.6%). Sementara itu, liabiliti Pelaburan portfolio mencatatkan nilai yang lebih tinggi RM704.6 bilion, didorong oleh Sekuriti hutang (66.1%) dan Ekuiti & dana pelaburan saham (33.9%).

PELABURAN LAIN

Kedudukan Pelaburan lain mencatatkan liabiliti bersih RM203.0 bilion pada akhir suku tahun kedua 2025 (ST1 2025: RM231.5 bilion). Jumlah aset Pelaburan lain meningkat kepada RM377.8 bilion (ST1 2025: RM357.3 bilion), manakala jumlah liabiliti berlaku penurunan kepada RM580.8 bilion (ST1 2025: RM588.8 bilion) bagi suku tahun ini.

ASET RIZAB

Rizab antarabangsa Malaysia pada akhir Jun 2025 berada pada RM510.0 bilion (akhir Mac 2025: RM520.7 bilion).

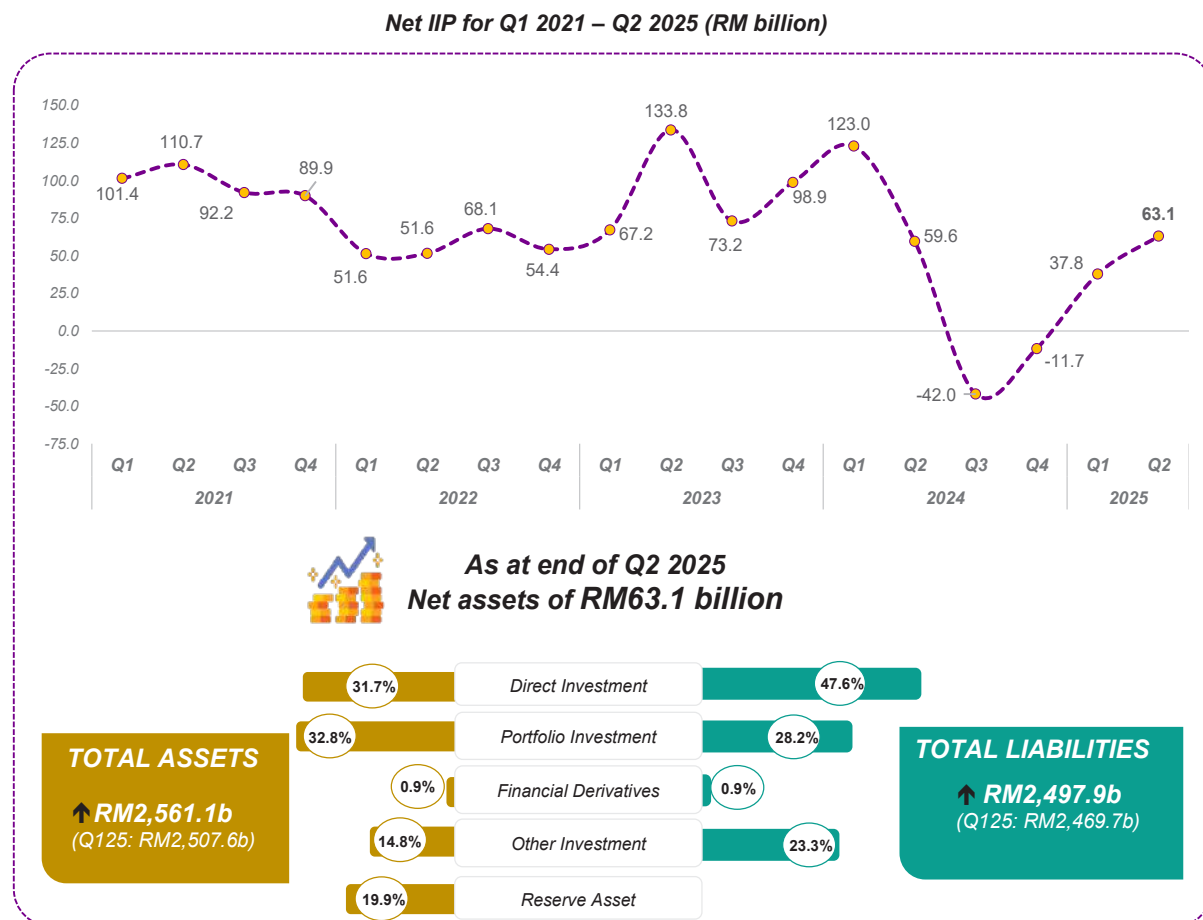

Paparan 4: Pelaburan Portfolio, Pelaburan Lain dan Aset Rizab, ST2 2025

Nota: b merujuk kepada bilion

INTERNATIONAL INVESTMENT POSITION PERFORMANCE

Malaysia's International Investment Position (IIP) registered higher net assets of RM63.1 billion as at the end of second quarter 2025 (Q1 2025: 37.8 billion). Total financial assets increased from RM2.51 trillion in the preceding quarter to RM2.56 trillion. Portfolio investment was the largest contributor with 32.8 per cent, followed by Direct investment at 31.7 per cent (**Exhibit 1**). At the same time, total liabilities rose to RM2.50 trillion as compared to RM2.47 trillion in the previous quarter. Direct investment and Portfolio investment were the major contributors, representing shares of 47.6 per cent and 28.2 per cent, respectively.

Exhibit 1: International Investment Position Performance, Q1 2021 - Q2 2025

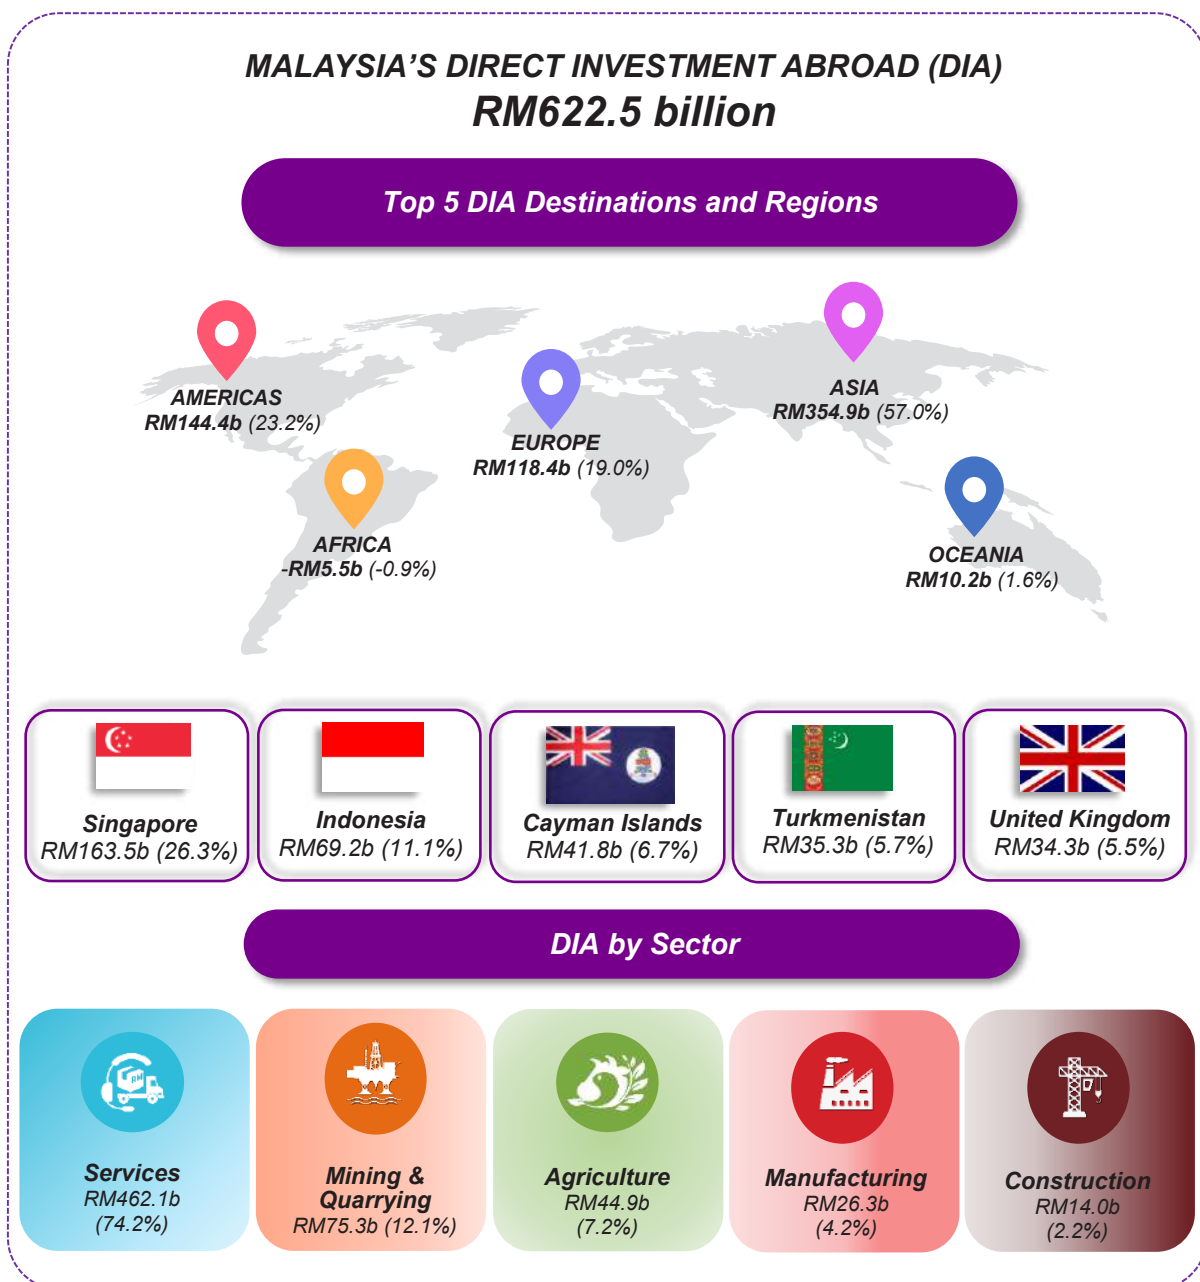

Notes: 1. % refers to percentage share of components
2. b refers to billion

DIRECT INVESTMENT

Direct investment registered net liabilities of RM379.4 billion as against RM380.8 billion in the previous quarter. Total Direct investment assets increased by RM9.1 billion to post RM810.6 billion (Q1 2025: RM801.5 billion), primarily in the forms of Equity & investment fund shares at 56.6 per cent (RM458.5 billion) and Debt instruments at 43.4 per cent (RM352.1 billion). As for liabilities, Direct investment increased to RM1.19 trillion, contributed by Equity & investment fund shares at 70.0 per cent (RM833.4 billion) and Debt instruments at 30.0 per cent (RM356.6 billion).

Following the directional principle, **Malaysia's Direct Investment Abroad (DIA)** position surged to RM622.5 billion as compared to RM618.9 billion in the previous quarter. The Services sector was the major player to DIA position, accounting for 74.2 per cent (RM462.1 billion), followed by Mining & quarrying (RM75.3 billion) and Agriculture (RM44.9 billion), **Exhibit 2**. In terms of regional distribution, Asia represented the largest position for DIA at RM354.9 billion with percentage share of 57.0 per cent. Among the top destinations, Singapore led with a value of RM163.5 billion (26.3%), followed by Indonesia (RM69.2 billion; 11.1%) and the Cayman Islands (RM41.8 billion; 6.7%).

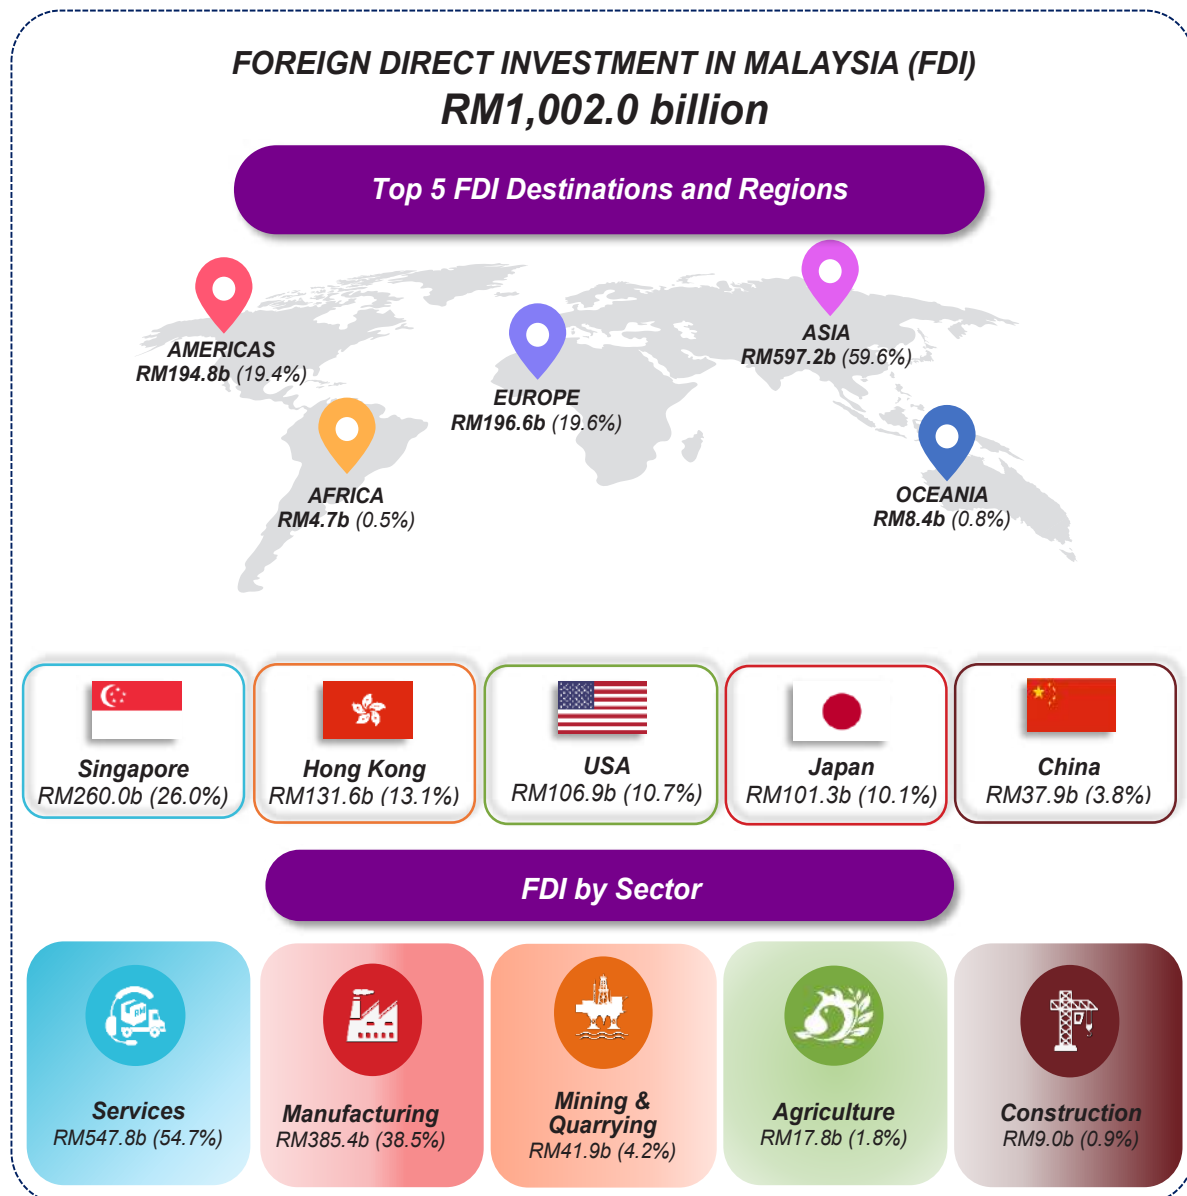

Exhibit 2: DIA Position by Sectors and Top Destinations, Q2 2025

Notes: 1. Value in parentheses () refers to percentage share
2. b refers to billion

As at the end of second quarter 2025, Malaysia's **Foreign Direct Investment (FDI)** position expanded by RM2.2 billion, reaching RM1,002.0 billion (Q1 2025: RM999.7 billion), **Exhibit 3**. Services sector continued to be the largest recipient of FDI with a value of RM547.8 billion or 54.7 per cent. This was followed by Manufacturing (RM385.4 billion; 38.5%) and Mining & quarrying sectors (RM41.9 billion; 4.2%). The sources for FDI position were largely from Asia region, totalling RM597.2 billion or 59.6 per cent. Singapore, Hong Kong and the United States of America (USA) were the top three countries for FDI position.

Exhibit 3: FDI Position by Sectors and Top Destinations, Q2 2025

Notes: 1. Value in parentheses () refers to percentage share
2. b refers to billion

PORTFOLIO INVESTMENT

The Portfolio investment position as at the end of second quarter 2025 showed net assets of RM135.3 billion as opposed to RM132.0 billion in the previous quarter (**Exhibit 4**). Total Portfolio investment assets also increased by RM30.5 billion to RM839.9 billion (Q1 2025: RM809.4 billion), contributed by Equity & investment fund shares (80.4%) and Debt securities (19.6%). Meanwhile, Portfolio investment liabilities recorded a higher value of RM704.6 billion, led by Debt securities (66.1%) and Equity & investment fund shares (33.9%).

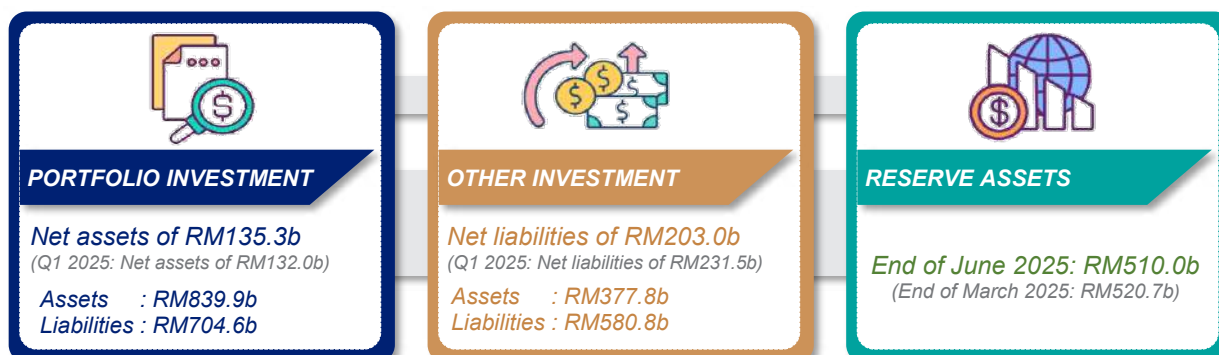

OTHER INVESTMENT

Other investment position posted net liabilities of RM203.0 billion as at the end of second quarter 2025 (Q1 2025: RM231.5 billion). Other investment assets increased to RM377.8 billion (Q1 2025: RM357.3 billion), while liabilities decreased to RM580.8 billion (Q1 2025: RM588.8 billion) in this quarter.

RESERVE ASSETS

Malaysia's international reserves as at the end of June 2025 stood at RM510.0 billion (end of March 2025: RM520.7 billion).

IIP 2025

Kedudukan Pelaburan Antarabangsa
International Investment Position

NOTA TEKNIKAL | TECHNICAL NOTES

NOTA TEKNIKAL

A. PENDAHULUAN

Penerbitan ini menyediakan statistik Kedudukan Pelaburan Antarabangsa (IIP) suku tahunan yang mengukur stok aset kewangan dan liabiliti asing Malaysia kepada negara lain. Penyusunan ini selaras dengan metodologi yang ditetapkan dalam *Balance of Payments Manual and International Investment Position Sixth Edition* (BPM6). Statistik ini menggambarkan pelaburan Malaysia di luar negeri (aset) dan pelaburan asing di Malaysia (liabiliti). Perbezaan di antara aset dengan liabiliti mencerminkan IIP bersih Malaysia. Umumnya, kedudukan bersih tersebut menunjukkan perbandingan di antara apa yang Malaysia miliki dengan yang ia berhutang. Dalam keadaan apabila aset asing melebihi liabiliti, ini menggambarkan ekonomi Malaysia berada pada tahap IIP bersih yang positif (kedudukan aset bersih), dan sebaliknya.

B. SKOP DAN LIPUTAN

Penyusunan IIP Malaysia terdiri daripada dua kategori, iaitu aset dan liabiliti. Aset kewangan dan liabiliti asing dikategorikan kepada lima jenis pelaburan iaitu pelaburan langsung, pelaburan portfolio, derivatif kewangan, pelaburan lain dan aset rizab. Pelaburan ini seterusnya dipecahkan mengikut jenis instrumen (cth. ekuiti & dana pelaburan saham, sekuriti hutang, mata wang & deposit, pinjaman dll.), sektor institusi (cth. bank negara, *deposit-taking corporations*, kerajaan dan sektor-sektor lain) dan tempoh matang kontrak.

Untuk memenuhi keperluan pengguna, pelaburan langsung juga dipersembahkan mengikut prinsip arah aliran seperti disarankan dalam BPM5. Mengikut manual ini, DIA diperoleh daripada perbezaan antara aset pelabur langsung Malaysia dengan liabilitinya, sementara FDI diperoleh daripada perbezaan antara liabiliti enterpris pelaburan langsung Malaysia dengan asetnya.

C. DEFINISI DAN KONSEP

IIP bagi Malaysia merupakan penyusunan statistik aset kewangan dan liabiliti asing Malaysia pada satu titik masa. Aset kewangan di luar negeri terdiri daripada tuntutan ke atas bukan residen dan emas monetari dan SDR yang dipegang oleh BNM. Paras aset dan liabiliti pada suku tahun berkait rapat dengan magnitud transaksi dan penyesuaian lain pada suku tahun tersebut.

Penyata IIP memaparkan perubahan dalam kedudukan aset kewangan dan liabiliti asing yang dicerminkan oleh transaksi kewangan dan faktor bukan transaksi kewangan seperti perubahan harga, perubahan kadar tukaran asing dan perubahan lain dalam tempoh kajian.

Transaksi kewangan merujuk kepada aliran dana kewangan yang menyumbang kepada kenaikan/pengurangan dalam aset/ liabiliti.

Bagi faktor bukan transaksi seperti perubahan harga, kebiasaannya ia berlaku dalam saham syarikat yang disenaraikan di Bursa Malaysia. Manakala perubahan kadar tukaran asing biasanya berlaku hasil daripada aset dan liabiliti asing dinilai pada mata wang selain daripada Ringgit Malaysia di mana IIP disediakan. Perubahan pada kadar di antara mata wang asing dan

Ringgit Malaysia memberi kesan kepada nilai aset atau liabiliti. Di bawah liabiliti, apabila kadar Ringgit Malaysia menyusut berbanding mata wang asing, maka akan memberi kesan positif dari segi perubahan kadar tukaran asing. Sebaliknya, kesan tersebut akan menjadi negatif apabila Ringgit Malaysia meningkat berbanding mata wang asing. Bagi aset pula, kesan terhadap Ringgit Malaysia adalah sebaliknya. Sementara itu, perubahan lain boleh wujud hasil daripada hapus kira, pengkelasan semula dan lain-lain.

IIP juga berkait rapat dengan komponen pendapatan pelaburan pada akaun semasa dalam statistik Imbangan Pembayaran. Secara amnya, semakin besar stok aset dan liabiliti asing, semakin besar pendapatan pelaburan terakru pada aset dan liabiliti asing tersebut. IIP sebahagian besarnya juga dapat memberi gambaran tertentu berkenaan hutang bukan ekuiti asing Malaysia.

Konsep residen juga digunakan dalam penyusunan ini yang mana ia selaras dengan penyusunan statistik Imbangan Pembayaran. Residen merujuk kepada syarikat atau institusi yang berada/ beroperasi di Malaysia di mana kepentingan ekonominya berpusat di Malaysia dan individu yang tinggal atau menetap di Malaysia bagi tempoh sekurang-kurangnya satu tahun. Bukan residen merujuk kepada syarikat atau institusi yang tinggal, individu, atau berada/ beroperasi di negara luar Malaysia.

Pelaburan Langsung

Pelaburan langsung merujuk kepada wujudnya hubungan jangka panjang di antara pelabur langsung dengan enterpris pelaburan langsung dan mempunyai kuasa pegangan sekurang-kurangnya 10 peratus dalam pengurusan enterpris tersebut. Pelaburan langsung meliputi semua transaksi di antara pelabur langsung dengan enterpris pelaburan langsung dalam Hubungan Pelaburan Langsung Asing (FDIR). Instrumen kewangan yang diliputi di bawah pelaburan langsung termasuklah ekuiti & dana pelaburan saham dan instrumen hutang (seperti pinjaman antara syarikat dan kredit perdagangan & pendahuluan).

Berdasarkan asas aset dan liabiliti, pelaburan langsung dipersembahkan mengikut aset dan liabiliti kasar. Aset merujuk kepada semua pelaburan di luar negeri bagi kedua-dua pelabur langsung dan enterpris pelaburan langsung di Malaysia, sementara liabiliti merujuk kepada semua pelaburan di Malaysia bagi kedua-dua pelabur langsung dan enterpris pelaburan langsung di luar negeri.

Mengikut asas prinsip arah aliran, DIA diperoleh daripada perbezaan antara aset pelabur langsung Malaysia dengan liabilitinya, sementara FDI diperoleh daripada perbezaan antara liabiliti enterpris pelaburan langsung Malaysia dengan asetnya.

Pelaburan Portfolio

Pelaburan portfolio melibatkan urus niaga antarabangsa dalam ekuiti & dana pelaburan saham (cth. saham) dan sekuriti hutang (cth. bon & nota, sukuk dan instrumen pasaran wang), selain daripadanya termasuk dalam pelaburan langsung dan aset rizab.

Derivatif Kewangan

Instrumen kewangan yang dihubungkan dengan instrumen kewangan lain atau petunjuk atau komoditi, dan mempunyai risiko kewangan tertentu (seperti risiko kadar faedah, risiko mata wang, risiko harga ekuiti & komoditi, risiko kredit dll.) yang boleh diniagakan secara berasingan di pasaran kewangan. Contoh derivatif kewangan ialah opsiyen (termasuk waran), niaga hadapan, kontrak hadapan dan swap.

Pelaburan Lain

Merujuk kepada pelaburan selain daripada pelaburan langsung dan pelaburan portfolio. Ia terdiri daripada mata wang & deposit, pinjaman yang dikaitkan dengan pajakan kewangan, kredit perdagangan dan pendahuluan tanpa mengira tempoh pembayaran balik dan akaun lain yang belum terima/ bayar.

Aset Rizab

Aset rizab merujuk kepada tuntutan BNM terhadap bukan residen bagi memenuhi keperluan pembiayaan BOP. Ia terdiri daripada pegangan emas dan pertukaran asing oleh BNM, milikan Hak Pengeluaran Khas dan kedudukan rizab BNM dengan Tabung Kewangan Antarabangsa IMF.

Ekuiti & Dana Pelaburan Saham

Terdiri daripada semua saham dalam syarikat subsidiari dan bersekutu dan sumbangan lain (barangan, perkhidmatan dan sumber lain). Kesemua saham yang dikeluarkan termasuklah saham biasa, saham premium dan saham keutamaan yang mempunyai hak mengundi.

Sekuriti Hutang

Sekuriti hutang termasuk bon, debentur, nota kewangan, nota janji hutang dan lain-lain sekuriti bukan-ekuiti yang boleh diniagakan yang mana biasanya diniagakan (didagangkan) dalam pasaran kewangan yang teratur.

D. PENILAIAN

Semua transaksi dinilai pada harga pasaran. Harga pasaran bermaksud sejumlah wang yang dipersetujui di antara pembeli bagi mendapatkan barangan dan perkhidmatan, daripada penjual. Pertukaran dibuat di antara kedua-dua pihak yang bebas dan atas dasar komersial sahaja. Sekiranya keadaan untuk mewujudkan harga sedemikian tidak berlaku, maka nilai pasaran yang setara, iaitu nilai yang dicatatkan pada buku lembaranimbangan digunakan.

E. SUMBER DATA

IIP disusun berdasarkan beberapa sumber:

Sumber utama

Penyiasatan Kedudukan Pelaburan Antarabangsa, IIP (usaha sama antara DOSM dan BNM).

Sumber sekunder

Data aset rizab dibekalkan oleh BNM.

F. PEMBUNDARAN

Sebarang perbezaan pada data yang dilaporkan adalah disebabkan oleh pembundaran.

G. AMALAN DATA AWALAN DAN SEMAKAN

Amalan yang digunapakai oleh DOSM bagi keluaran data awalan dan data disemak ialah:

- Data awalan dikeluarkan selepas tujuh minggu selepas suku tahun rujukan;
- Data disemak bagi tahun sebelumnya akan diterbitkan pada suku pertama tahun semasa; dan
- Data akhir akan diterbitkan setahun selepas data disemak diterbitkan.

TECHNICAL NOTES

A. INTRODUCTION

This publication provides quarterly International Investment Position (IIP) statistics that measures the stock of Malaysia's external financial assets and liabilities with the rest of the world. The compilation is in accordance with the methodology set forth in the Balance of Payments Manual and International Investment Position Sixth Edition (BPM6). This statistics portray Malaysia's investment abroad (assets) and foreign investment in Malaysia (liabilities). The difference between the assets and liabilities reflects Malaysia's net IIP. Basically, the net position shows what Malaysia owns in relation to what it owes. Under the circumstances should external assets exceed its liabilities, this indicates that the economy of Malaysia is in a positive net IIP (net assets position), and vice versa.

B. SCOPE AND COVERAGE

The IIP compilation for Malaysia comprises of two broad categories namely assets and liabilities. External financial assets and liabilities are categorised into five types of investment namely: direct investment, portfolio investment, financial derivatives, other investment and reserve assets. The investment is detailed further according to instruments (e.g. equity & investment fund shares, debt securities, currency & deposit, loans, etc.), institutional sector (e.g. central bank, deposit-taking corporations, general government and other sectors) and contractual maturity period.

To facilitate the users need, direct investment is also presented according to directional principle as recommended by BPM5. Under this manual, DIA is derived by netting off the assets of Malaysia's direct investors with its liabilities, while FDI is derived by netting off the liabilities of Malaysia's direct investment enterprises with its assets.

C. CONCEPTS AND DEFINITIONS

The IIP of Malaysia is the statistical compilation representing, at any point in time Malaysia's external financial assets and liabilities. The external financial assets consist of claims on non-residents and of monetary gold and SDRs hold by BNM. The level of the assets and liabilities at the end of the quarter, therefore, is closely related to the magnitude of the transactions and other adjustments for the quarter.

The integrated IIP statement presents the changes in external financial assets and liabilities position are reflected by the financial flows and other nonfinancial flows such as price changes, exchange rate changes and other changes during the period under review.

The financial flows refer to flow of financial funds which contribute to an increase / decrease in asset/ liability.

For non-transactions factors such as price changes, commonly it occurs to the shares of the corporations listed in Bursa Malaysia. Meanwhile exchange rate changes usually occur as a result of the external assets and liabilities being denominated in currencies other than the Ringgit Malaysia in which the IIP is prepared. Changes in the rates between the other currencies and the Ringgit Malaysia consequently affect the values of assets or liabilities.

Under liabilities, when the rate of the Ringgit Malaysia depreciates against the currency in denomination, the impact in terms of the exchange rate changes will be positive. In contrast, the impact will be negative when the Ringgit Malaysia appreciates relative to the currency in denomination. As for assets, the impact on the Ringgit Malaysia will be the reverse. Meanwhile, other changes can take place from write-offs, reclassifications and etc.

IIP is also closely associated with the investment income component of the current account in Balance of Payments statistics. In general, the greater the stocks of the external assets and liabilities, the greater the investment income accruing on these external assets and liabilities. The IIP, to a certain extent, can also provide a view of the external non-equity debts of Malaysia.

The concept of resident also used in this compilation which is in line with the Balance of Payments statistics. A resident is a company or institution located/ operating in Malaysia where its centre of predominant economic interest is in Malaysia and a person who has stayed or lived in Malaysia for at least one year. A non-resident refers to a company or institution that lives in, a person, or is located/ operates in a country outside Malaysia.

Direct Investment

Direct investment refers to the lasting interest which implies the existence of a long-term relationship between the direct investor and the enterprise and obtaining at least 10 per cent of the voting power on the management of the enterprise. Direct investment covers all transactions between direct investors and direct investment enterprises within the Foreign Direct Investment Relationship (FDIR). Financial instruments covered under direct investment include equity & investment fund shares and debt instruments (such as inter-company loans and trade credits & advances).

According to assets and liabilities basis, direct investment is presented according to gross assets and liabilities. Asset refers to all investments abroad by both direct investors and direct investment enterprises in Malaysia, while liabilities refers to all investments in Malaysia by both direct investors and direct investment enterprises abroad.

According to directional basis, DIA is derived by netting off the assets of Malaysia's direct investors with its liabilities, while FDI is derived by netting off the liabilities of Malaysia's direct investment enterprises with its assets.

Portfolio Investment

Portfolio investment involves international transactions in equity & investment fund shares (e.g. shares) and debt securities (e.g. bonds & notes, sukuk and money market instruments), apart from those included in direct investment and reserve assets.

Financial Derivatives

Financial instruments that are linked to another financial instruments or indicators or commodities, and through which specific financial risks (such as rate risks, currency, equity & commodity price risks, credit risks, etc.) can be traded in financial markets in their own rights. Examples of financial derivatives are options (including warrants), futures, forward contracts and swaps.

Other Investment

Refers to investment other than direct and portfolio investment. It comprises of currency & deposits, loans associated with financial leases, trade credits & advances irrespective of the length of the repayment period and other accounts receivable/ payable.

Reserve Assets

The reserve assets refer to BNM's claim against non-residents for meeting BOP needs. It comprises of BNM holdings of gold and foreign exchange, holdings of SDR and its reserve position with the IMF.

Equity and Investment

Comprises of all shares in subsidiaries and associates and other contributions (goods, services and other resources). All classes of shares on issues include ordinary shares, premium shares and participating preference shares.

Debt Securities

Debt securities include bonds, debentures, commercial paper, promissory notes and other tradable non-equity securities which usually traded (tradable) in organised financial markets.

D. VALUATION

All transactions are valued at market prices. The market prices are defined as amounts of money that the willing buyers pay to acquire goods and services from the willing sellers. The exchanges are made between independent parties and on the basis of commercial considerations. In the absence of conditions that establish such prices, therefore, equivalent market values such as book values posted in the balance sheet are used.

E. DATA SOURCES

IIP are compiled from several sources:

Primary source

Survey on International Investment Position, IIP (joint effort between DOSM and BNM).

Secondary source

Data on reserve assets are provided by BNM.

F. ROUNDING

Any differences in the aggregated data are due to rounding.

G. DATA RELEASE AND REVISION PRACTICE

The practice adopted by DOSM for preliminary data release and revision are:

- *The preliminary data is released seven weeks after reference quarter;*
- *Revision data for the previous year will be published in the first quarter of the current year; and*
- *Final data will be published a year after the release of revision data.*
